

***Remarks***

Reconsideration of this Application is respectfully requested.

Upon entry of the foregoing amendment, claims 41-59 are pending in the application with claim 41 being the independent claim. Applicants have cancelled claims 1-40 without prejudice to or disclaimer of the subject matter therein. A table showing examples of support for newly added claims 41-59 is attached (Table 1). These changes are believed to introduce no new matter, and their entry is respectfully requested.

The specification has also been amended to perfect the priority claim. Support for the incorporation by reference of the priority applications may be found in the original specification in the paragraph beginning at page 1, line 8.

The paragraph in the specification at page 13, line 18 has also been amended. Support for the language in the paragraph can be found in priority Application No. 08/103,396, filed August 6, 1993, and incorporated by reference in the originally filed application.

***Conclusion***

Consideration of this Amendment is respectfully requested. Applicants respectfully submit that the application is in proper condition for allowance.

Respectfully submitted,
